The infamous Sith Lord Darth Caedus- once known as Jacen Solo- is dead, and those he's left behind must pick up the pieces of their lives. Caedus's former apprentice, Tahiri Veila, tries to find a place for one who has been both Jedi and Sith but now finds that she is neither. His former lover, Tenel Ka, struggles with the monster Jacen had become while trying to stop the last scheme he set in motion before his death. Finally, Jedi Knight Zekk, lost and believed killed during the final fight against Caedus, finds himself imprisoned by a pirate captain unlike anyone he's ever met, and enlisted in a mission that could change the shape of the galaxy...
